

# Farming Asset List

As you prepare for your estate planning journey, having an up-to-date list of the real property, accounts, and equipment involved in your farming operation is important. The value and ownership of these items can have a significant impact on your financial, estate, and business planning.

## YOUR FARMING OPERATION

| FARM LAND |                      |                 |          |                 |
|-----------|----------------------|-----------------|----------|-----------------|
| Address   | Property Description | Estimated Value | Mortgage | Name(s) on Deed |
|           |                      |                 |          |                 |
|           |                      |                 |          |                 |
|           |                      |                 |          |                 |
|           |                      |                 |          |                 |

| FARM BANK OR CREDIT UNION ACCOUNTS |                |         |                |                    |
|------------------------------------|----------------|---------|----------------|--------------------|
| Financial Institution              | Account Number | Balance | Valuation Date | Name(s) on Account |
|                                    |                |         |                |                    |
|                                    |                |         |                |                    |
|                                    |                |         |                |                    |
|                                    |                |         |                |                    |

| FARM EQUIPMENT           |                           |       |                                               |
|--------------------------|---------------------------|-------|-----------------------------------------------|
| Description of Equipment | Estimated Equipment Value | Leins | Who Owns the Equipment?<br>(Person or Entity) |
|                          |                           |       |                                               |
|                          |                           |       |                                               |
|                          |                           |       |                                               |
|                          |                           |       |                                               |
